

VIVA CALIF

E-COMMERCE DASHBOARD — EXECUTIVE SUMMARY

Purpose

The Viva Calif dashboard was developed to provide a **comprehensive view of sales performance, customer demographics, and operational efficiency** across California. It integrates multiple data sources into a single interactive platform, enabling leadership to monitor trends, identify growth opportunities, and optimize delivery operations.

Key Highlights

- **Overall Performance**
 - Orders: **2,400**
 - Quantity: **11,997**
 - Revenue: **\$649.0k**
 - Average Rating: **4.0**
 - Average Delivery Time: **2.3 days**
- **Sales Trends**
 - Weekly analysis shows fluctuating demand, with peaks in both **quantity and revenue** around weeks 6–8.
 - Order value per customer skews toward **repeat buyers**, with significant contribution from customers placing **5–10+ orders**.
- **Customer Demographics**
 - Gender split: **52% Female, 34% Male, 13% Unknown, 1% Other**.
 - Platform usage: Majority of female customers order via **App and Website**, while male customers show stronger engagement on **Target.com** and **Partner App**.
- **Product Insights**
 - Top categories: **T-Shirts, Jeans, Sneakers, Tank Tops**.
 - Gender preferences vary: Female customers dominate apparel categories, while male customers lean toward footwear and accessories.

- **Geographic Distribution**

- Highest order volumes in **Los Angeles County (3,991 orders)**, followed by **Alameda and Fresno**.
- Regional disparities highlight untapped potential in smaller counties.

- **Operational Metrics**

- Delivery times are concentrated within **0–3 days**, reflecting strong logistics performance.
- Customer ratings remain stable across months, averaging **4.0**, with minor dips in February.

Strategic Insights

1. **Customer Retention:** High repeat order value suggests loyalty programs could further boost engagement.
2. **Regional Expansion:** Counties with low order penetration (e.g., Alpine, Lassen) represent opportunities for targeted marketing.
3. **Product Optimization:** Apparel drives majority sales; expanding footwear and accessories could balance portfolio.
4. **Platform Strategy:** Strengthen **App and Website** experience for female customers, while enhancing **Partner App** for male customers.
5. **Operational Excellence:** Delivery times are competitive; maintaining this speed is critical to sustaining high ratings.

Recommendations

1. Prioritize investment in the App and Website channels.
2. Review Instagram's paid social spend given comparatively low conversion.
3. Launch a repeat-purchase / loyalty program to convert one-time buyers.
4. Expand logistics and marketing focus in Southern California; test growth campaigns in Northern California.
5. Audit long-tail (9+ day) deliveries to protect the current rating and delivery benchmarks.
6. Reassess long-tail product categories for bundling or rationalization
